Trevor's Wish To Meet His Favourite Characters At A Magical Theme Park in Florida!

Medical Condition: Myelodysplastic Syndrome

Age: 3

Trevor is a kind, big-hearted boy who has Myelodysplastic Syndrome. Trevor is an incredibly brave little guy who has received numerous rounds of chemotherapy to help battle his medical condition. His suppressed immune system means spending a lot of time at home, so Trevor takes a lot of joy from watching his favourite movies, and hanging out with his family.

When watching movies and TV shows, one character in particular, a jovial cartoon mouse, has captured the heart of young Trevor. It is no surprise then, that his wish is to travel to a magical theme park in Florida to meet him!

This trip will give Trevor and his family the opportunity to create wonderful memories, helping them heal and grow stronger, together.

Thank you Zancor Homes for making Trevor's one true wish a reality!
