## Dylan's wish to go to Punta Cana!

**Medical Condition:** multiple disorders

**Age:** 5

Dylan is a 5-year-old boy who, more than anything else, loves spending time with his family, including his two big brothers. He was born with a chromosomal disorder and requires around the clock care from his loving parents.

Despite his physical challenges, Dylan is able to swim – and spends as much time as he can in the water. This is why he wants to go to a special resort in Punta Cana where he can swim in the ocean! He is most excited about spending time with his brothers doing what he enjoys more than anything: swimming!

Thanks to Zancor Homes, Dylan's wish will soon be coming true!

### About Dylan:
